

Homeowner Story

Name – Teodor, Marcela & Andrei Şandra

Teodor was raised by his Aunt when his parents passed away. He has 2 older sisters who got married and moved away. Teodor's first wife passed away in 2004.

In 2006, Teodor met and married Marcela. Shortly after, their son Andrei was born. They are currently living in a two-room apartment along with Marcela's mother and her brother, his wife and three children. The Şandra's family live in a small room, and the mother and brother's family in the other room. The apartment has no running water or bathroom inside the house – just a toilet in the garden.

I am so glad that I will have my own home where I hope I can provide my son with good, healthy living conditions. This house will definitely give my family something I couldn't do so far and something I didn't have either.
